

ADDENDUM TO RFP

Request for Proposal: Hurricane Michael Financial Disaster Recovery Services

Initial Advertisement: June 26, 2019

Date of Addendum: July 12, 2019

To All Potential Proposers:

This addendum is issued to modify the previously issued RFP document and/or given for information purposes, and is hereby made part of the RFP package. Please attach receipt of this addendum in your response.

Questions & Answers

Q1. The cover page of both RFP's says that the due date is 7/18 @ 2pm. Pg. 28 states that the due date is 2pm on Friday July 7th, 2019. Can you confirm that the correct due date is 7/18 @ 2 pm?

A1. The correct due date 7/18/19 @ 2 pm (CST).

Q2. Are we to add disposal fees to our price proposal? Will tipping fees be considered a passthrough?

A2. The County does not own a waste facility. Disposal fees will be the responsibility of the contractor and tipping fees will not be a passthrough.

Q3. Could you please provide a copy of your current debris removal contract?

A3. Calhoun County did not have a debris contract in place prior to Hurricane Michael. FDOT procured and managed the County contract. The Road Department is currently performing force account for the remainder of Hurricane Michael Debris.

Q4. Can you provide an estimate of how much debris was picked up from Michael as well as how much remains?

A4. Calhoun County has not been provided accurate numbers from FDOT. Using force account operations, we do not have a good estimate of the remainder of Michael debris on the ground. We also do not have a detailed list of roads that still require pickup. A self-performed survey of County roads is encouraged in creating your proposal.

Q5. Does the county expect this contract to cover tree removal? If so, can the county please add line items in pricing to cover Tree Removal and Hanger Removal. If not, is the county issuing a separate RFP for Tree work?

A5. This contract will cover tree removal and is defined in the definitions. A separate RFP will not be issued for this service. Please add the following line items to page 49 of the RFP:

24. Cut and Remove Hazardous Trees (Leaners)		Unit	Price
6"-11.99"	EA		_____
12"-23.99"	EA		_____

24"-35.99"	EA	_____
36"-47.99"	EA	_____
48" and greater	EA	_____

25. Hanger Removal (2" and greater) per tree _____

Q6. In the Hourly Fee Schedule, would the county consider removing the Electrical Bucket truck with Lineman? This operation is solely performed by the local electrical company or their subcontractor and not a debris Hauler.

A6. Please give a fee schedule for this line item, however, it more than likely will not be requested.

Q7. What is the weight of each evaluation criterion?

A7. Please see page 31

Q8. Will extended totals (unit price multiplied by estimated quantity) be used to evaluate pricing, and if so, what estimated quantities and what line items will be used to derive the extended totals that will be evaluated?

A8. No. Only unit price will be used to evaluate pricing. Quantities are unknown.

Q9. For both RFPs, pg. 6 states that the questions deadline is July 16th and pg. 12 states that the questions deadline is July 12th. Which is correct?

A9. The deadline for questions will be July 16th.
